

PRODUCT: GOOGLE MAPS
FEATURE: REAL-TIME TRAFFIC PREDICTION

- MONIKA M

PRODUCT OVERVIEW

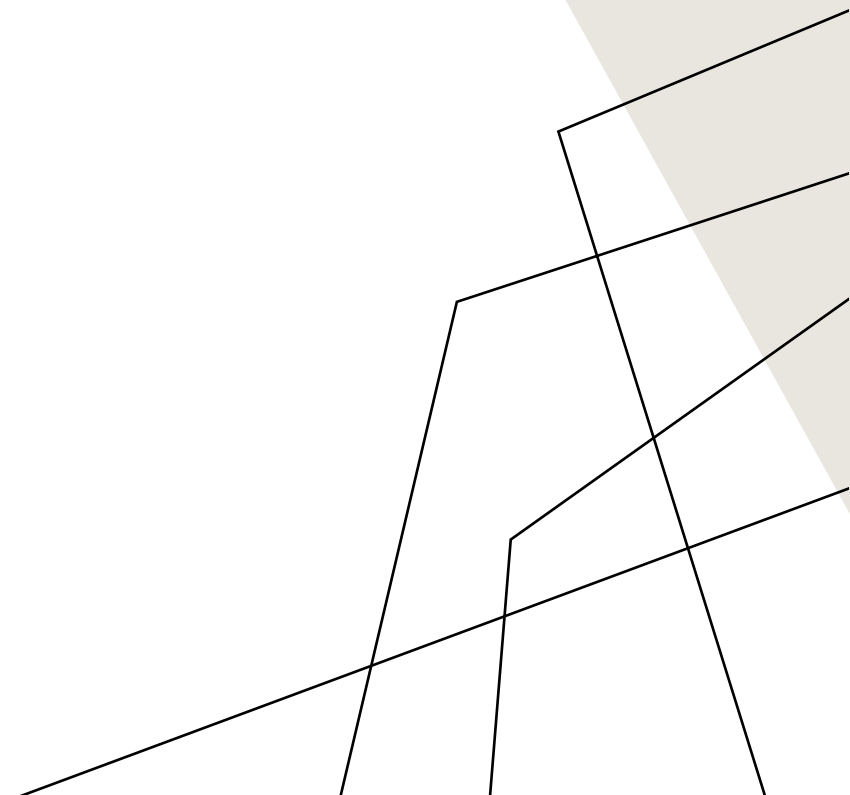

Google Maps is a navigation platform that helps users discover locations, find routes, estimate travel time, and navigate efficiently. One of its most valuable features is **Real-Time Traffic Prediction**, which provides live traffic conditions and suggests the fastest route to a destination.

WHAT DID USERS DO BEFORE GOOGLE MAPS?

Existing Solutions:

- Paper maps
- Asking local people for directions
- GPS devices without live traffic updates
- Radio traffic announcements
- Personal experience with roads
- Static route maps

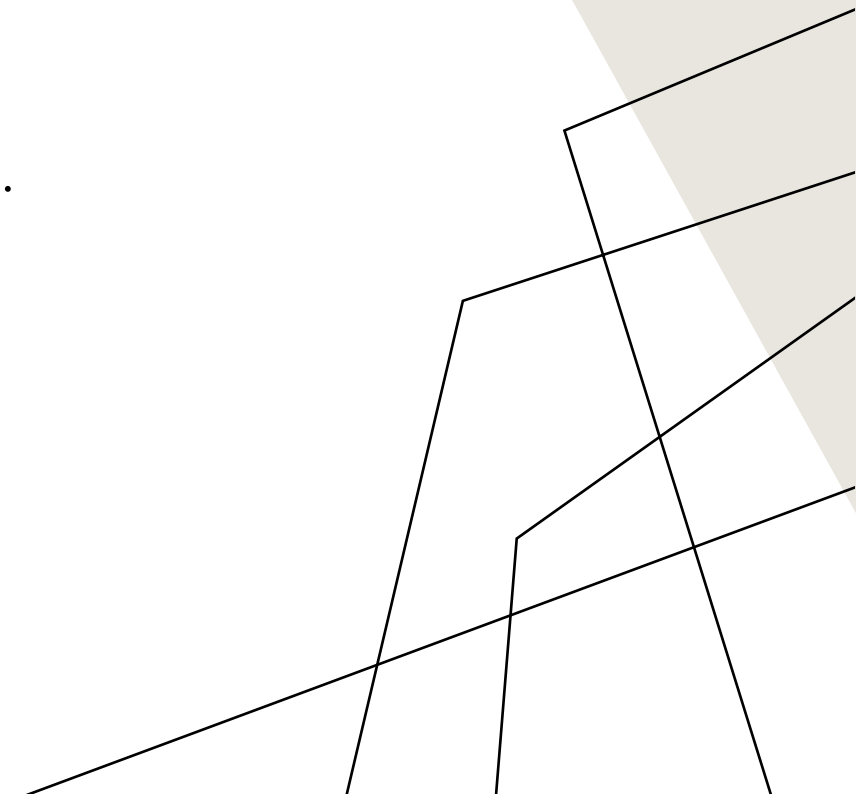

CHALLENGES FACED EARLIER:

1.No traffic visibility - Users had no idea whether roads were congested.

2.Uncertain travel time - Arrival time was based on guesswork.

3.Late arrivals - Unexpected traffic caused delays.

4.Fuel wastage - Vehicles consumed more fuel while waiting in traffic.

HOW THIS FEATURE SOLVES THE PROBLEM:

1.Unknown traffic conditions - Live traffic updates

2.Delayed arrival - Accurate ETA prediction

3.Fuel wastage - Suggests faster routes

4.Route uncertainty - Alternative route suggestions

USER SEGMENTS:

1.Primary Users
2.Secondary Users

Primary Users:

1.Office Workers
2.Cab Drivers
3.Students
4.Families

Secondary Users:

1.Bus drivers
2.Emergency Responders
3.Logistics companies
4.Field sales Executive

USER PERSONA:

Persona: Ravi Kumar

Age: 29

Occupation: Software Engineer

Location: Bengaluru

Goals:

- Reach office before 9 AM
- Avoid traffic congestion
- Save commuting time

Pain Points:

1.Traffic changes every day

2.Unexpected roadblocks

3.Difficulty estimating travel time

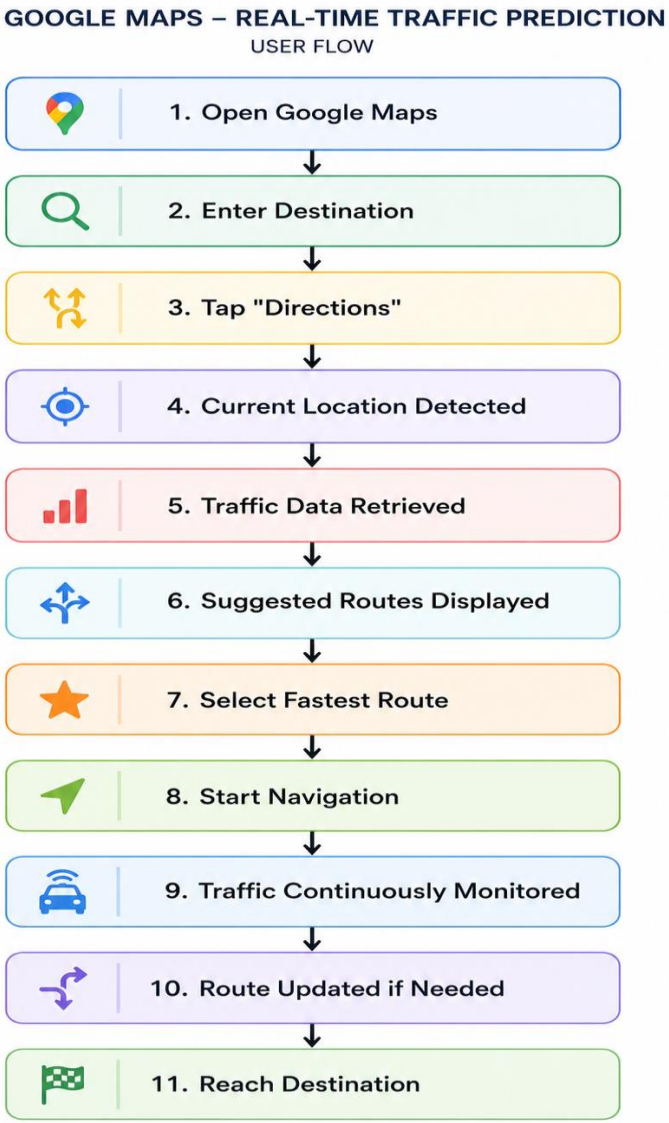

Needs:

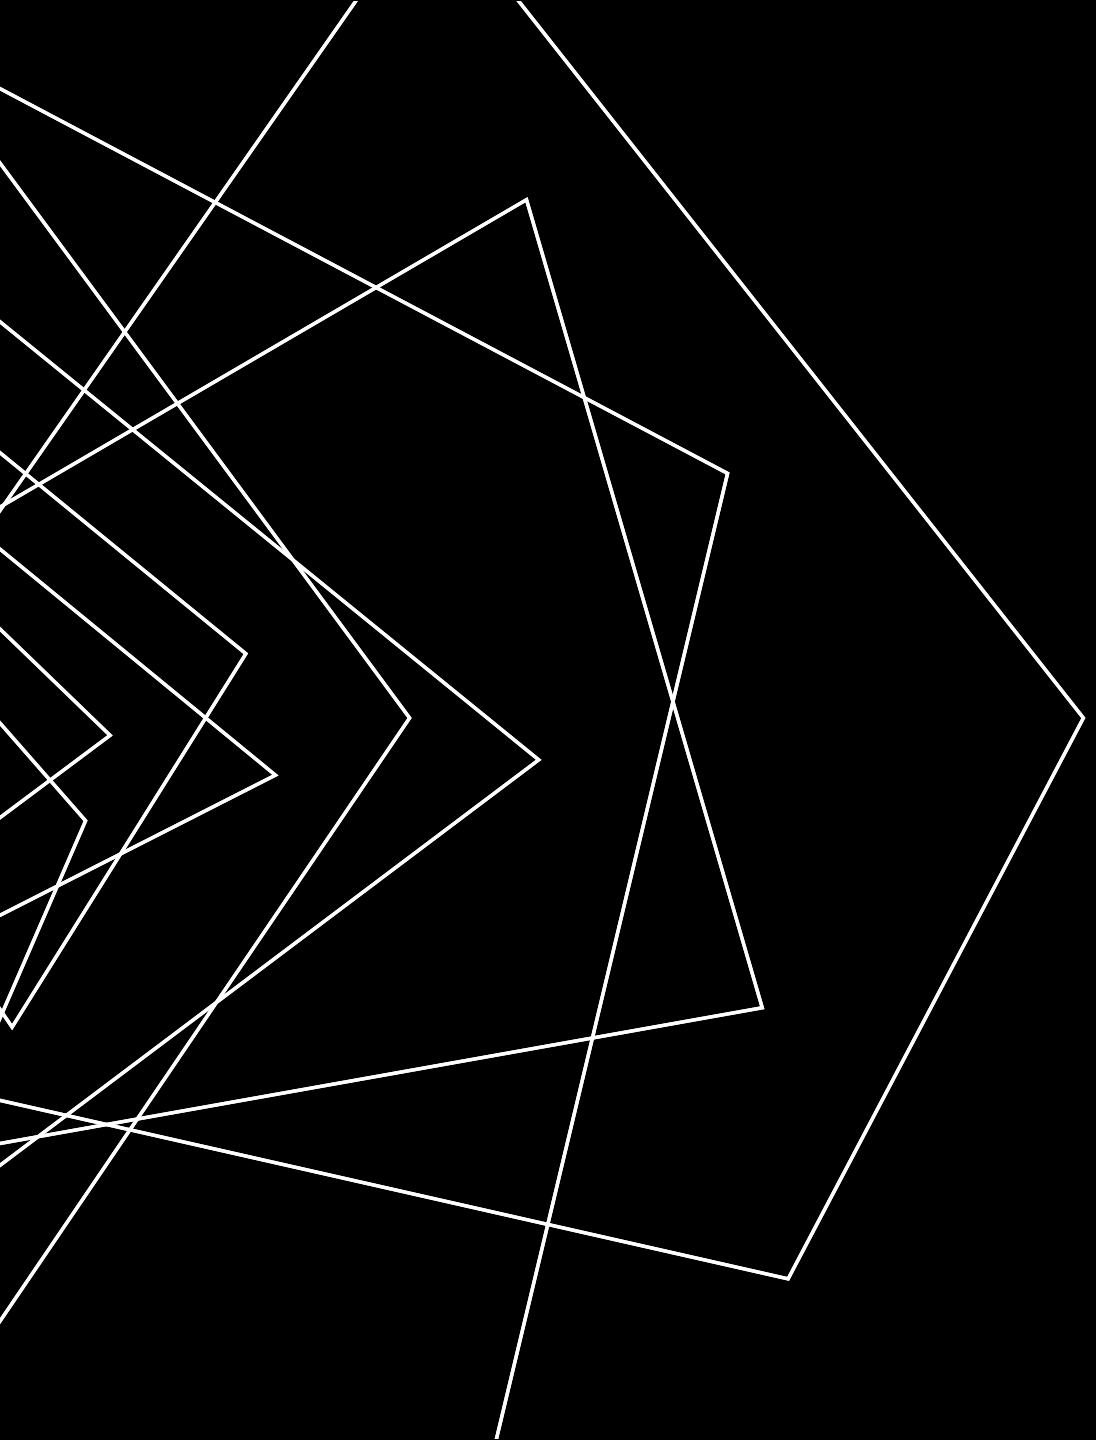

1.Accurate ETA

2.Fastest Route

3.Live Traffic Information

USER FLOW:

GOOGLE MAPS – REAL-TIME TRAFFIC PREDICTION
USER FLOW
1. Open Google Maps
2. Enter Destination
3. Tap "Directions"
4. Current Location Detected
5. Traffic Data Retrieved
6. Suggested Routes Displayed
7. Select Fastest Route
8. Start Navigation
9. Traffic Continuously Monitored
10. Route Updated if Needed
11. Reach Destination
